1. NATURE OF OPERATIONS AND GOING CONCERN

Big Gold Inc. (the "Company" or "Big Gold") was formed by a plan of arrangement incorporated on October 19, 2016, under the British Columbia Corporations Act with its head office located at 9th floor 1021 West Hastings Street, Vancouver, British Columbia, Canada, V6E 0C3. The Company's shares commenced trading on the Canadian Securities Exchange ("CSE") under the symbol "BG" on September 21, 2022.

The Company is a mineral exploration and development company focused on the acquisition and exploration of mineral properties. The Company's primary focus is the exploration and development of the Tabor and Martin Kenty projects (See Note 4) located in the Thunder Bay and Kenora/Rainy River mining district respectively.

Going concern

As at March 31, 2024, the Company had working capital of \$51,717 (December 31, 2023 - \$266,966) had not yet achieved profitable operations, had accumulated losses of \$2,806,234 (December 31, 2023 - \$2,590,985), and currently expects to incur further losses in the exploration and development of its business.

The Company believes it has sufficient working capital with \$74,609 of cash at March 31, 2024, to fund the Company's planned next 12 months of activities. However, from time to time, the Company may pursue the raising of funds by an equity investment, debt borrowing or a combination of both. The Company has yet to discover a mineral deposit that is economically recoverable, therefore there is no assurance that the operations of the Company and any future operations will be successful and profitable. These conditions raise material uncertainties which cast significant doubt as to the use of the going concern assumption in these financial statements.

These interim condensed financial statements have been prepared on the basis of accounting principles applicable to a going concern, which assumes that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of operations as they come due. In assessing whether the going concern assumption is appropriate, management takes into account all available information about the future, which is at least, but is not limited to, twelve months from the end of the reporting period. Management is aware, in making its assessment, of material uncertainties related to events or conditions that cast significant doubt upon the Company's ability to continue as a going concern.

These interim condensed financial statements do not reflect the adjustments to the carrying values of assets and liabilities and the reported expenses and balance sheet classifications that would be necessary if the Company were unable to realize its assets and settle its liabilities as a going concern in the normal course of operations. Such adjustments could be material.

2. BASIS OF PRESENTATION

(a) Statement of compliance

These unaudited interim condensed financial statements have been prepared in accordance with IAS 34 “Interim Financial Reporting”. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS as issued by IASB and interpretations issued by IFRIC. The same accounting policies, methods of computation and note disclosures are followed in these unaudited interim condensed financial statements as compared to the Company’s annual audited financial statements for the years ended December 31, 2023 and 2022. Any subsequent changes to IFRS that are given effect in the Company’s annual audited financial statements for the year ending December 31, 2023 could result in restatement of these condensed interim financial statements. In particular, the Company's significant accounting policies are presented as Note 3 in those audited financial statements have been consistently applied in the preparation of these unaudited interim condensed financial statements.

These unaudited interim condensed financial statements were authorized for issuance by the Board of Directors on May 17, 2024.

(b) Basis of measurement, functional and presentation currency

These interim condensed financial statements are presented in Canadian dollars, which is the Company’s functional currency. All financial information is expressed in Canadian dollars unless otherwise stated and have been rounded to the nearest dollar.

These interim condensed financial statements have been prepared on the going concern basis, under the historical cost convention, except for certain financial instruments that are measured at fair value, as explained in the accounting policies described herein. Further these interim condensed financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

(c) Significant judgements, estimates and assumptions

The preparation of these interim condensed financial statements requires management to make judgments and estimates and form assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. On an ongoing basis, management evaluates its judgments and estimates in relation to assets, liabilities, revenue and expenses. Management uses historical experience and various other factors it believes to be reasonable under the circumstances as the basis for its judgments and estimates. Actual outcomes may differ from these estimates under different assumptions and conditions.

There have been no significant changes relating to accounting judgments, estimates and assumptions in the preparation of these interim condensed financial statements from those judgments, estimates and assumptions disclosed in Note 2 to the 2023 Audited Financial Statements.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

These unaudited interim condensed financial statements have been prepared following the same accounting policies used in the preparation of the audited financial statements of the Company for the year ended December 31, 2023.

New accounting standards

Standards issued and effective for annual periods beginning on or after January 1, 2024

IFRS 10 – Consolidated Financial Statements (“IFRS 10”) and **IAS 28 – Investments in Associates and Joint Ventures (“IAS 28”)** were amended in September 2014 to address a conflict between the requirements of IAS 28 and IFRS 10 and clarify that in a transaction involving an associate or joint venture, the extent of gain or loss recognition depends on whether the assets sold or contributed constitute a business. The effective date of these amendments is yet to be determined; however early adoption is permitted.

IAS 1 – In February 2021, the IASB issued ‘Disclosure of Accounting Policies’ with amendments that are intended to help preparers in deciding which accounting policies to disclose in their financial statements. **Presentation of Financial Statements (“IAS 1”)** was amended in January 2020 to provide a more general approach to the classification of liabilities under IAS 1 based on the contractual arrangements in place at the reporting date. The amendments clarify that the classification of liabilities as current or noncurrent is based solely on a company’s right to defer settlement at the reporting date. The right needs to be unconditional and must have substance. The amendments also clarify that the transfer of a company’s own equity instruments is regarded as a settlement of liability, unless it results from the exercise of a conversion option meeting the definition of an equity instrument. The amendments are effective for annual periods beginning on or after January 1, 2024.

IAS 8 – In February 2021, the IASB issued ‘Definition of Accounting Estimates’ to help entities distinguish between accounting policies and accounting estimates. The amendments are effective for year ends beginning on or after January 1, 2024.

The Company is currently assessing the impact of these standards.

4. ACQUISITION OF PROPERTIES

(A) MARTIN KENTY PROJECT

On July 19, 2021 the Company completed the acquisition of the resource property located in Kenora, Ontario in the Rainy River mining district, known as the Martin Kenty project (“Martin Kenty”) which consists of 264 mineral claims.

In exchange for the 264 mineral claims the Company issued 4,000,000 common shares of the Company at a fair value of \$0.145 per common share for total consideration of \$580,000. The Company has expensed the \$580,000 as acquisition costs in the year ended December 31, 2021.

The Martin Kenty Property has a net smelter return royalty (“NSR”) of two percent (2%) owed to the

previous owner of the property. The Company has a right to purchase one percent of the NSR back for \$1,000,000. The forementioned common shares issued pursuant to the Asset Purchase Agreement were issued on November 11, 2021.

On October 18, 2022 the Company completed the acquisition of resource claims located near Kenora, Ontario, adjacent to the Company's Martin Kenty mineral claims. The Company acquired 6,100 hectares of which 4,700 hectares of open mineral claims. In exchange for the mineral claims, the Company issued 2,000,000 shares at a fair value of \$0.05 per common share for a total consideration of \$100,000. The Company has expensed the \$100,000 as acquisition costs in the year ended December 31, 2022. The Company also is obligated to pay a 2% net smelter royalty ("NSR") on the property. and has the right to purchase 1% of the NSR in return for paying \$1,000,000.

During the period ended March 31, 2024, the Company incurred exploration expenses of \$969 (2023 - \$8,977) on the Martin Kenty Project (see Note 14).

(B) TABOR PROJECT

On April 5, 2023 the Company completed the acquisition of Tabor Project ("Tabor") located within the Shebandowan Greenstone Belt northwest of Thunder Bay, Ontario. The Tabor property consists of 156 mineral claims. Under the terms of the Acquisition, the Company issued 1,400,000 common shares at a fair value of \$0.03 per common share for a total consideration of \$42,000. In addition, the Company paid the Vendor \$6,500 for a 100% interest in the Tabor Property, subject to a 2% net smelter royalty ("NSR"). The Company has the right to purchase 1% of the NSR in return for paying \$1,000,000.

During the period ended March 31, 2024, the Company incurred exploration expenses of \$103,097 (2023 - \$nil) on the Tabor Project.

6. RELATED PARTY TRANSACTIONS AND KEY MANAGEMENT COMPENSATION

Key management salaries

Key management includes members of the board of directors, the Chief Executive Officer and the Chief Financial Officer. The aggregate value of transactions relating to key management personnel and entities over which they have control or significant influence were as follows for the three months ended March 31, 2024, and 2023:

- i) During the three months ended March 31, 2024, \$15,000 (2023 - \$15,000) was charged by the Chief Executive Officer for consulting fees.
- ii) During the three months ended March 31, 2024, \$6,000 (2023 - \$6,000) was charged by the Chief Financial Officer under contract with Grove Corporate Services Ltd.

For the three months ended March 31, 2024, the Company expensed \$4,500 (2023 - \$4,500) in office rent to Venex Capital Corp. (“Venex”), a related party due to Venex’s being a significant shareholder of the Company. At March 31, 2024, the Company owed \$1,500 for office rent (December 31, 2023 - \$1,500) to Venex.

7. FLOW THROUGH SHARE PREMIUM LIABILITY

On December 30, 2022, the Company closed a flow-through common share financing (see Note 8) for gross proceeds of \$55,002. The flow-through shares were issued at a premium to the market price in recognition of the tax benefits accruing to subscribers the premium associated with this financing was \$27,501 this premium was removed by the end of December 31, 2023 as the flow-through expenditure commitment had been fulfilled.

On May 30, 2023, the Company closed another flow-through common shares financing (see Note 8) for gross proceeds of \$110,005. The flow-through shares were issued at a premium to the market price in recognition of the tax benefits accruing to subscribers the premium associated with this financing was \$59,261.

The flow-through premium is derecognized through income as the eligible expenditures are incurred. For the period ended March 31, 2024, the Company satisfied all of its \$110,005 (December 31, 2023 - \$55,002) flow-through expenditure commitment by incurring eligible expenditures and as a result the flow-through premium was reduced by \$59,261 (December 31, 2023 - \$27,501).

11. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (continued)

necessarily indicative of the amounts the Company could realize in a current market exchange and could be materially affected by the use of different assumptions or methodologies.

The Company's risk exposures and their impact on the Company's financial instruments are summarized below:

Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices comprise four types of risk: interest rate risk, foreign exchange risk, commodity price risk and other price risk, such as equity risk. The Company has no financial instruments affected by market risk.

Interest rate risk

The Company is exposed to interest rate risk. Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market interest rates. The Company is exposed to interest rate risk arising from fluctuations in interest rates received on its cash balance. Fluctuations in market interest rates do not have a significant impact on the Company's results of operations due to the short-term nature of interest-bearing cash.

Liquidity risk

The Company is exposed to liquidity risk. Liquidity risk is the exposure of the Company to the risk of not being able to meet its financial obligations as they fall due. The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. The Company's future liquidity is dependent on factors such as the ability to generate cash from operations and to raise money through debt or equity financing (see note 1).

Foreign exchange risk

The Company's functional currency is the Canadian dollar, and all major purchases are transacted in Canadian dollars. Management believes the foreign exchange risk is negligible and therefore does not hedge its foreign exchange risk.

Credit risk

Credit risk is the risk of loss associated with counterparty's inability to fulfill its payment obligations. The Company's credit risk is primarily attributable to cash. Cash is held with a reputable Canadian chartered bank. Management believes that the credit risk concentration with respect to financial instruments included in cash is minimal.

12. CAPITAL MANAGEMENT

The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support the development of its planned business activities. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. In order to carry out the planned business activities and pay for administrative costs, the Company will spend its existing working capital and raise additional funds as needed. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

12. CAPITAL MANAGEMENT (continued)

The Company is not subject to other externally imposed capital requirements. The Company considers its capital to be shareholders' equity (deficiency), which is comprised of share capital, reserves, and accumulated deficit.

The Company's objective when managing capital is to obtain adequate levels of funding to support its business activities, to obtain corporate and administrative functions necessary to support organizational functioning and obtain sufficient funding to further the development of its business. The Company raises capital, as necessary, to meet its needs and take advantage of perceived opportunities and, therefore, does not have a numeric target for its capital structure. Funds are primarily secured through equity capital raised by way of private placements and issuance of convertible debentures. There can be no assurance that the Company will be able to continue raising equity capital in this manner.

13. COMMITMENTS

In 2022 the Company raised \$55,002 in flow-through funds and all of those funds were spent on eligible exploration expenditures by December 31, 2023.

In May 2023 the Company raised \$110,005 in flow-through funds which must be spent on eligible exploration expenditures by December 31, 2024. As of March 31, 2024, the Company had incurred \$110,005 (December 31, 2023 – 82,300) in eligible exploration expenditures completing its commitment.

The Company has no other commitments as at March 31, 2024.
